

Outpatient Physical, Occupational and Speech Therapy with PD Specialty—Erie Area

*Please note, while we do our best to keep the list up to date, therapists may have received additional certifications or may have moved to new practices after this list was created. If there is a practice not listed here that you would like to use, feel free to contact their office and ask if they specialize in therapy for PD. We also welcome any updates you may have for our list. Call Parkinson Partners at **814-899-3030** or email: info@parkinsonpartners.org. Remember that it is important to ask questions: How much experience does the PT, OT or Speech Pathologist have working with people with PD? Keep in mind, clinicians with many years of experience working with this population also have much to offer, regardless of certifications. Feel free to ask how many PD patients the therapists have treated recently and if the clinician has additional training that could help with your individual concerns. **The choice is always yours!**
